

ECL-V702

Expandable Advanced Video Doorbell Monitor

The ECL-V702 is an advanced indoor video doorbell station designed for use with one or two outdoor doorbell camera units. Users can see who is ringing the doorbell and talk with them, and control the door or gate lock associated with the calling unit. You can add a second (sub-monitor) ECL-V702 to the system and monitor your doorbell cameras from two locations. It can also connect to up to two (2) additional security cameras, allowing you to page through both doorbell cameras and both security cameras from the main or sub-monitor unit.

Easy to clean, satin aluminum finish with sealed acrylic face. Easy to reach touch-panel controls on the front. Built-in speaker and microphone for two-way communication.
