

ECL-400IL

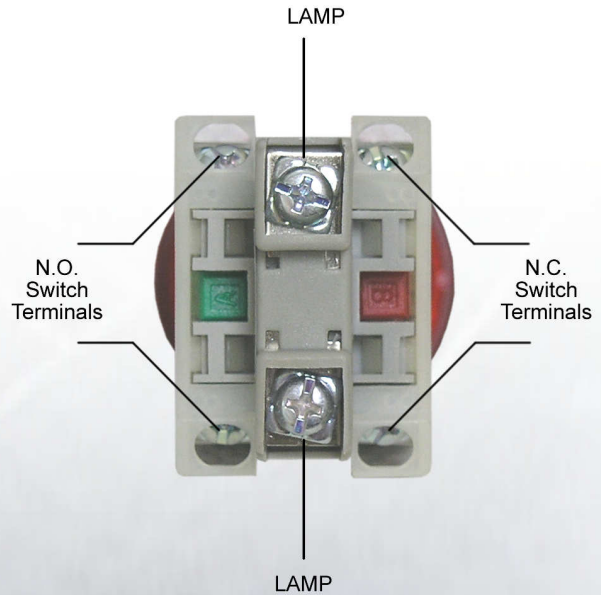

Push-To-Exit Button with Red Lamp

This illuminated push-button switch has a stainless steel one-piece wall mount bracket with stamped and painted legend. Brightly lit with an incandescent bulb behind the translucent red button top, it is designed for high visibility and is impossible to ignore in the dark. Switch contacts are dual rated at 6A/125VAC and 3A/300VAC. The bulb needs a separate 12VDC supply and draws a minimal current.

Specifications

Button: translucent red acrylic
Lamp: Clear incandescent bulb
Lamp Power: 12VDC
Switch Type: N.O. & N.C. (both available)
Contact Rating: 6A when using 125VAC, 3A when using 300VAC (dry contacts)
